

# Summer Tech Internship

## CODERS WANTED:

Looking for youth into coding, gaming and all things tech for paid work-learning experience and tech career exploration

Our 6-week summer program is looking for youth interested in a career working with computers. Participants will be introduced to many different tech career paths and be paid to work on a computer project for an area business or organization.

We will teach youth about the fundamentals of computer science and provide basic training and support in the following areas:

- Videogame development
- Web design
- Coding and mobile app development
- Help Desk
  - System operations and hardware repair
  - Cyber security

Additionally, youth will receive work-readiness training which will help them develop the soft skills necessary for success in any field.

**July 9 — August 17**

**Monday — Friday**

**9:30 am — 3:30 pm**

**3535 30th Avenue, Kenosha**

**316 Fifth Street, Racine**

Participants aged 14-21 must be referred by a DVR Vocational Counselor 262-697-4690 (Voice/TTY).

For more information call 262-671-3033 or e-mail [meryls@careercoacheswi.com](mailto:meryls@careercoacheswi.com).
