

Summer Multimedia Internship

CREATIVES WANTED :

Looking for creative youth for
paid work-learning experience
and career exploration

Our 6-week summer program is looking for youth interested in a digital arts career. Participants will be introduced to many different creative career paths and be paid to work on a media project for an area business or organization.

We will teach youth fundamental design concepts and provide basic training and support in the following areas:

- Digital video production
- Photography
- Editing
- Graphic design
- Audio recording

Additionally, youth will receive work-readiness training which will help them develop the soft skills necessary for success in any field.
