Career preparation

Self-advocacy in college  
and the workplace

- Youth work 3 hours a day and are paid \$9.25 an hour; July 9-August 17; 9:30-3:30
- Youth do not need to have previous experience
- Youth must select either IT or multimedia.
- Youth must provide their own personal care and maneuver in a variety of settings
- GameMaker Studio by YoYo games is used for 2D video game development.
- IT projects will probably entail writing html in javascript and CSS
- Videography will be a large part of the multimedia projects
- Career path exploration will include trips to area colleges and community resources
- EverFi's Financial Literacy includes savings, banking, credit cards & Interest rates, credit score and consumer protection
- Career preparation includes developing a resume and portfolio, establishing a LinkedIn account (opt), on-line job searching training, internet safety, cover letters, mock interviewing, and networking.
- Self-advocacy includes: self awareness, disability services in college, disability rights in workplace, communication, professionalism, team work.
