Dear Parents and Guardians,

With the recent developments regarding Coronavirus (COVID19) and the temporary closing of our schools, we want to ensure that our focus continues to be the safety of our students and staff members, and the education of our students with minimal disruption. We want to take a moment to review the education plan with students attending Palmyra Elementary School.

Each 4-6 grade student has been given a Chromebook to take home along with grade level assignments. 4K-3 grade students have been given work packets to complete as well. The work packets are a review of previously taught material, while the work included with students who received Chromebooks have a mix of previously taught curriculum and new material. Everything assigned requires minimal parental guidance. Teachers can be contacted with questions during this hiatus, with the exception of Spring break. Our teachers can be contacted by parents or students by emailing them or through Google Classroom. Each teacher has provided additional information about assigned work to their individual students and parents.

Specials teachers at PES have created a Bingo style board that has activities students can choose from to practice skills in Art, music, band, Guidance and physical education. Specials teachers can also be reached using their email accounts that you can find by visiting the PES website.

PEASD administration will be meeting frequently during this time and we will notify you when changes occur. Again our teachers will be available through email or Google Classroom if you have any questions.

Sincerely,
Steve Greenquist
PES Principal
