 - A. **Review of October 2022 Minutes:** The minutes from the October 4, 2022 meeting were reviewed and approved.
 - B. **Discussion regarding K-12 Science Curriculum Pilot:** Ms. Didenko reported that the 6th grade teachers did not care for Science Dimensions program through Houghton Mifflin, as the vocabulary and math was beyond their ability level. So, they are going to pilot McGraw Hill's Integrated Science program at the 6th grade level. The remaining grades have received the training on the Science Dimensions program and will begin piloting it during the 2nd quarter. A question arose regarding what science curriculum was followed up until now and it was stated that the elementary students alternate Social Studies units and science units throughout the year, so they began the year with social studies and will transition to the science curriculum. The 7th and 8th grade classes have used previous curriculum up until this point and will transition to the new curriculum with the new quarter.
 - C. **District Curriculum & Instructor Coordinator Update:** Ms. Didenko reported that reading and math intervention supplemental materials have been ordered for the district and interventions will begin soon. Interventions for the middle school and high school will be done during 9th hour, as soon as those materials are available.
