

Palmyra Eagle School District

The Palmyra-Eagle Area School District has partnered with Family Services of Waukesha to provide access to a virtual mental health professional while at school. PEASD understands the limited community resources available and extensive waiting list families face while trying to get mental health support. In an effort to better support our students and families, a counselor from Family Services will be available virtually to eligible students two days per week. ***The District does not fund counseling sessions. Sessions are funded by the family's health insurance.***

If you are interested in completing a referral to explore eligibility for your student, please complete the enclosed packet. The completed paperwork can be returned to the school. All paperwork is confidential and will not be shared PEASD staff without consent.

If you would like additional information regarding Family Services and the potential services available for your child, please contact Christine Runkel (MS/HS Counselor) 262-495-7101 ext 2205.

Thank you

PEASD Administration
